WORK EXPERIENCE

Software Developer

Teodor Dev Tech

Pretoria

01/2022 - Present

- Managed project delivery encompassing business systems, internal tools, and workflow-specific software.
- Orchestrated end-to-end delivery from requirements gathering through launch and ongoing support, utilizing Java, Spring Boot, React, Next.js, SQL, and various hosting workflows.
- Translated client requirements into functional features, robust data structures, secure authentication flows, insightful reporting capabilities, and intuitive user interfaces.
- Engineered and deployed systems that facilitate administrative tasks, meticulous record-keeping, accurate quoting processes, efficient task tracking, and overall business operations.
- Cultivated strong ownership, prioritization skills, troubleshooting acumen, and effective business-facing communication, which are transferable to mentoring a junior engineering team.
