Skills

Languages: Java, JavaScript, SQL, HTML, CSS

Frameworks & Libraries: Spring Boot, JPA, JDBC, React, Next.js, Android, Swing

Databases & Tools: MySQL, PostgreSQL, Git, GitHub, Render, Vercel, SSL, CSV import, hosting workflows

Core Strengths: REST APIs, CRUD flows, authentication, validation, schema design, admin dashboards, reporting, business workflows

Work Experience

Teodor Dev Tech

Jan 2022 - Present

Software Developer

Pretoria, South Africa

- Built and delivered business systems, web apps, Android apps, internal tools, and workflow-specific software for client and self-led projects.
- Managed delivery from requirements gathering through build, deployment, support, and iteration using Java, Spring Boot, Android, React, Next.js, SQL, and hosting workflows.
- Translated business needs into secure authentication flows, CRUD modules, reporting screens, data structures, user roles, and practical interfaces for daily operations.
- Developed systems for administration, record keeping, quoting, lead capture, task tracking, invoice tracking, church management, and operational dashboards.
- Demonstrated ownership across troubleshooting, prioritization, release readiness, stakeholder communication, and practical handover for business users.
- Java, Spring Boot, JPA, JDBC, Android, React, Next.js, PostgreSQL, MySQL, Git, GitHub, Render, Vercel, HTML, CSS

Education

Boston City Campus

2022 - 2024

System Development

Pretoria, South Africa

Department of Higher Education and Training

Jan 2017 - Dec 2017

System Support

Pretoria, South Africa

Torque IT

Jan 2012 - Dec 2012

Microsoft Certified IT Professional

Pretoria, South Africa

Project Work

- **Business Operations Hub:** Built an operational dashboard with role-based authentication, lead capture, CSV import, invoice tracking, admin reporting, and PostgreSQL-backed workflows. Java, Spring Boot, PostgreSQL, Render. integration-tfga.onrender.com/login
- **Church Management System:** Developed a centralized administration system for member records, ministries, attendance, reporting, and replacing spreadsheet-heavy church operations. Java, Spring, JPA, MySQL. church-management-system-2-jywe.onrender.com
- **Desktop Point of Sale:** Created an offline POS application covering product management, cart handling, transaction flows, JDBC persistence, and packaged Windows desktop delivery. Java, Swing, JDBC. Download installer
- **Clinical Reasoning Assistant:** Built a clinical workflow app for structured consultation notes, differential thinking, and clearer next-step checks before decision-making. Next.js, healthcare workflow design. clinical-reasoning-assistant-blond.vercel.app
- **Gardeners Task Tracker:** Built an Android task tracking app for daily garden work coordination, team visibility, and field operations. Java, Android. Download APK

Awards and Certificates

- System Development, Boston City Campus
- System Support, Department of Higher Education and Training
- Microsoft Certified IT Professional, Torque IT
